

**REMARKS**

This application is a U.S. national phase, pursuant to 35 U.S.C. §371, of international application No. PCT/US2004/013703, published in English on November 18, 2004 as international publication No. WO 2004/098522 A2, which claims the benefit of U.S. provisional patent application Ser. No. 60/466,638, filed April 30, 2003. Page 1 of the specification has been amended to reflect this information.

The instant application is related to a national phase application filed on even date herewith, attorney Docket No. 60756DIV1(49949), Express Mail, Airbill No. EV 711312140 US ("the 60756DIV1 application") of the same PCT application (*i.e.*, PCT/US2004/013703, "the parent PCT application").

The instant Preliminary Amendment is being filed to divide claimed subject matter contained in the parent PCT application. Thus, claims 1-67 and 78-100 have been cancelled without prejudice or disclaimer and claims 68 and 101-103 have been amended.

Accordingly, claims 68 – 77 and 101 - 103 are presented for examination. In addition, the title and abstract have been amended to reflect the subject matter now being claimed.

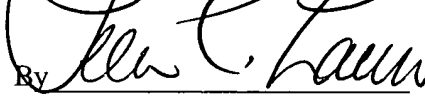

In effect, the instant application and the 60756DIV1 application are divisionals of the parent PCT application.

Claim cancellations and amendments were made to divide claimed subject matter contained in the parent PCT application and to otherwise reduce the number of claims and eliminate multiple claim dependencies, for the purpose of reducing the excess claims fees, and to correct minor typographical errors. No new matter has been added. Applicants hereby reserve the right to pursue the claims as originally filed, or similar claims, in one or more patent applications.

Applicants respectfully request early examination on the merits and allowance of the application. If it would be helpful for consideration of this Preliminary Amendment and/or to expedite the prosecution of this application, the Examiner is invited to contact the undersigned at the telephone number shown below.

Respectfully submitted,

EDWARDS & ANGELL, LLP

By
